"I have prescribed the BUFFALO WATER for well-nigh a half-cen ING. The therapeutic results from this Water not unfrequently so far exceed what would be led to anticipate from anything shown by the reported analysis that in my carr acquaintance with it I was often at a loss to account for its action. Long observation, however, of its effects upon others and expertence in its use in my own person in protracted in health has satisfied me that it possesses in a very decided degree NERVINE TONIC and CEREBRO-SPINAL STIMULANT PROPERTIES, and to its direct influence upon the NEI-VOUS SYSTEM is doubtless due its remarkable results in many cases."

The collection for incidental expenses was taken up, Mr. Jones remarking while the effering was going on.

"If it is true that poor people are the best people—I don't say they are—you people are the best people—I don't say they are—you people are the best people—I don't say they are—you people are the best people on earth." Mr. Excell sang one of the "Triumphant Songs." entitled "II I Were a Voice," after which Mr. Jones stated that as he had worked hard and wanted to preach a good sermon at night, he had asked Mr. Stnart to conduct the services. "Mr. Stnart to conduct the services. "Mr. Stnart to conduct the services. "Mr. Stnart for the people believe it." Dr. George Cooper, of the First Baptist Church, offerd prayer.

Mr. Stuart said that it was not as hard for the people present to be disappointed at Mr. Jones not preaching, as it was for him to preach to a disappointed congregation. He read a few verses, beginning with the words, "Behold a certain lawyer, seeking to tempt Him, said, Lord what shall to to inherit eternal life." It is the beautiful story of the Good Samaritan.

The words to which the speaker called the especial attention of his hearers were:
"Love thy neighbor as thyself." In this great law is embraced the entire code of Christian love. It is the carrying out of the great golden rule to do unto others as you would that they should do unto you.

Mr. Stuart first spoke of unselfishness. He said it was a divine instinct to protect and keep your person, property and repaired in the same way. The sin of this old world is seelfishness, and the first part is the same way. The sin of this old world is seelfishness, and in the last fifty years the world is becomed to the last fifty years the world is becomed to lail for six months.
